CGPA: 3.382

EXPERIENCE

- Internship at Bank Islami Pakistan Limited as a Database Management Intern. (5/9/2022- 18/10/2022),
- Internship at National Center for Artificial Intelligence (NCAI) at NED University as a Machine Learning Intern (27/3/2023 - 20/4/2023)

FINAL YEAR DESIGN PROJECT

- Title: Deep Writer: Enhancing Integrity in Industrial Handwritten Document Recognition
- Supervisor: Miss Fauzia Yasir
- Industry Affiliation: Orca Enterprise LLC Inc

NOTABLE TERM PROJECTS

- Python GUI Application
- Android Mobile Application developed on SQL Lite database using Android Studio.
- Hardware implementation of automatic door lock system
- Implementation of processor design using Logisim software.
- Implemented machine learning techniques to create an image classification system for diverse datasets.
- Deployed a static webpage on Google Kubernetes Engine (GKE) using a Docker image with Nginx on Google Cloud Platform.

PREFERRED SPECIALIZATION FIELD IN MASTERS

- I'm currently exploring various fields and am particularly interested in data analytics due to its growing importance and potential for impactful insights.
- However, I'm open to exploring other specializations as well, and I aim to choose a focus that aligns with both my strengths and career aspirations as I gain more clarity through further research and experience.

CERTIFICATIONS & TRAININGS

- Front End Development - HTML
- Front End Development - CSS

INTERESTS & ASPIRATIONS

- I am passionate about exploring diverse fields and gaining practical experience in different areas.
- My goal is to develop a well-rounded skill set and identify my key strengths.
- I aspire to contribute meaningfully to a forward-thinking organization and continuously evolve both personally and professionally

HOBBIES & SKILLS

- Technical writing, sketching, painting

- Supervisor: Ms. Mehwish Raza
- Industry Affiliation: Agriauto Industries Limited

NOTABLE TERM PROJECTS

- A GUI based static ecommerce platform using Python,
- A Digital Gate Locker using basic gate ICs,
- A Microcontroller based digital fan speed controller by PWM using AVR kit and digital keypad,
- An FPGA based Room Temperature manipulator utilizing the temperature sensor and switches of Nexys A7,
- Developed a Mail client through SMTP using Python,
- An AI-powered Checker Board Game, Trained a Model using online Dataset and performing result analysis,
- Deploying an application using AWS and Webhosting and performing a comparative analysis.

PREFERRED SPECIALIZATION FIELD IN MASTERS

- Data Science

CERTIFICATIONS & TRAININGS

- Introduction to Programming by Michigan University,

- Computer System Intern at Karachi Development Authority (KDA) · Mar 2023 - Apr 2023

FINAL YEAR DESIGN PROJECT

- Title: Vogue Vision AI: Text-Conditioned Fashion Image Manipulation using Generative AI
- Supervisor: Dr. Maria Waqas
- Industry Affiliation: NIL

NOTABLE TERM PROJECTS

- Applying Distributed Computing principles using Linux
- Customized deep learning model for object classification
- Investigate a modern digital signal processor
- FPGA-based digital system for intensity control and color-coding using accelerometer/temperature sensor data with tri-color LEDs, employing Pulse Width Modulation (PWM) for intensity regulation.
- Exploring synchronization and resource management in operating system
- Designed a microcontroller/microprocessor-based application for real world scenario
- Hire Loop Online CV making and uploading website
- Word Search using Artificial intelligence
- Florence: E-commerce Website Online Flower Shop

PREFERRED SPECIALIZATION FIELD IN MASTERS

- When opting for the specialization for a master's, I would look into those that fall into the same domain as my bachelor's degree, i.e., Computer System Engineering.
- Specializations can be Master's in Data Science, Data Analytics, Artificial Intelligence, Cybersecurity and others that require basics of computer systems.

CERTIFICATIONS & TRAININGS

- Web Development with React
- Issued by NCL -NED | November 2022 Android,ios,web application development using Flutter
- Issued by NCAI
- January 2022 Data Engineering Mastery Workshops
- Issued by Microsoft Learn Student Ambassador NEDUET Karachi

INTERESTS & ASPIRATIONS

- My interests lie in constantly learning and updating my skills to stay current with the latest technology trends. With a background in Computer Information and System Engineering,
- I am eager to explore its practical applications and bring my knowledge into real-world projects.
- I aspire to become a skilled Computer Engineer, focusing on mastering a specific niche while continuing to grow and adapt in this advancing field.

HOBBIES & SKILLS
